

ADMIXCURE-WP

CONCRETE CURING COMPOUND – WHITE PIGMENTED

PRODUCT

Single part, ready to use concrete curing compound for fresh concrete surfaces, especially slope roof & vertical structures.

BENEFITS

Single part - ready to use – can be applied by brush – white in colour – does not form film – single coat application – water curing eliminated – cost effective – chloride free.

USES

ADMIXCURE-WP is designed as concrete curing compound for fresh concrete surfaces where water curing is not effectively possible such as slope roofs, vertical structures etc.

DESCRIPTION

ADMIXCURE-WP is chloride free, liquid in nature, specially formulated for concrete curing purposes. It reacts with free lime and seals the pores completely thus reducing water evaporation which assists excellent curing process. In excessive heat or dry wind weather, ADMIXCURE-WP applied area may be covered with polythene sheets for additional benefits.

PACKING

Available in 50 Ltr & 100 Ltr plastic drums.

COVERAGE

50 to 60 sft per 1 Ltr of ADMIXCURE-WP with single coat application.

SHELF LIFE

12 months if stores in original container under shade.
